2. Government regret to have to notice that notwithstanding the clear instructions conveyed in the Proceedings of the 4th February 1893 read above, the Taluk Treasuries at Shimoga and Hassan which by the way are at the Head-quarters of Districts were not inspected at all, while the standing order requires that every Taluk Treasury should be inspected once at least every six months. The Deputy Commissioners of Shimoga and Hassan should explain why the treasuries in question were not inspected at all during the year.

3. The Taluk Treasuries named below were inspected once only :—

District.	*Taluk Treasury.*
Bangalore	Bangalore.

L. B. B.—LOCAL FUNDS.

Proceedings of the Government of His Highness the Maharaja of Mysore (Local Boards Branch—Municipal & Local Funds)—dated 13th February 1895.

READ:—

Docket dated 13th December 1894, No. 439—386, from the Deputy Commissioner, Chitaldroog District, submitting for sanction a revised estimate for Rs. 800 for deepening and improving a well on the road side near Halahalli of the Holalkere Taluk.

No. 12127-35—L. F. 129-94, DATED, BANGALORE, 13TH FEBRUARY 1895.

ORDER THEREON.—The estimate is forwarded to the Chief Engineer with a request that he will be so good as to cause the same to be examined and to report his opinion thereon.

2. The Deputy Commissioner of Chitaldroog is requested to forward the original estimate for Rs. 400, direct to the Chief Engineer for reference.

3. In the case of all original works costing Rs. 200 and upwards, proposed to be executed in the Revenue Department, Presidents of Municipalities other than Bangalore and Mysore which have separate Engineers, and the Presidents of all District Fund Boards are requested to send their estimates to the Executive Engineers and obtain their approval or remarks before submitting them to Government for sanction.

T. ANANDA ROW,
Chief Secretary.

To—The Chief Engineer of Mysore, with the revised estimate.
The Deputy Commissioner, Chitaldroog District.
The Deputy Commissioners of other Districts.

No. 12342-77—L. F. 132-94, DATED, BANGALORE, 15TH FEBRUARY 1895.

ORDER.—Frequent instances have occurred in which the Deputy Commissioners have taken upon themselves to spend money in anticipation of Government sanction. This is not right. If the expenditure is urgent, sanction should be applied for by wire, and no expenditure incurred without previous sanction will be passed in future. This order should be considered applicable to all Funds—Provincial, Municipal and Local.

L. ANANTASAMI RAO,
Offg. Chief Secretary.

To—The Deputy Commissioners of Districts.
The Heads of Departments.
The Comptroller to the Government of Mysore.

GENERAL.

Proceedings of the Government of His Highness the Maharaja Mysore General—dated 14th February 1895.

READ THE FOLLOWING :—

Letter No. 82, dated 9th January 1895, from Mr. R. Bruce Foote and Mr. J. Cook, to the Chief Secretary to the Dewan of Mysore—

We write to propose the erection in the grounds adjoining the Central College and the new buildings of the Geological Department of an apparatus for the generation of gas for the use of the Laboratories of both institutions.

Similar installations have been, or, are being erected by Messrs. Orr and Sons at their own works, also at the Presidency College, Madras, and other Institutions including Spencer's Soda Water Factory in Bangalore. Messrs. Orr and Sons apparatus has been inspected both by Mr. Cook and Doctor Evans who report very favorably upon it.

The students of the Central College will be at a serious disadvantage if they are obliged to continue the use of spirit lamps instead of using Bunsen Burners in their Practical Chemistry.

The same consideration applies in an equal degree to the Laboratory of the Geological Department. Here gas will be found to be in every way more useful and convenient in assay furnaces than the direct combustion of kerosine. Indeed according to the latest advices from London, there is some doubt whether furnaces on the latter principle can be constructed at all. In any case, it would be desirable to have gas furnaces as well. For the ordinary chemical analytical work, there is no question of the decided superiority of gas over oil or methylated spirits.

Messrs. Orr & Sons have given an estimate for an installation sufficient for all purposes at Rs. 7,000. A less complete plant with which it would be necessary to manufacture gas every day and which would leave no margin for future development would cost Rs. 4,620.

The gas can be manufactured from kerosine oil, oil cake or other oleaginous substances and the cost of the material consumed would be very small indeed.

In conclusion we would express our earnest conviction that the use of gas would add in the highest degree to the efficiency of our Laboratories.

(*Enclosure to the above.*)

Letter dated, Madras, 20th December 1894, from Messrs. P. Orr & Sons, to Dr. J. W. Evans.

Referring to your esteemed enquiry of to-day, we have pleasure in quoting you for an apparatus suitable for your requirements.

We have calculated that you will have 60 burners working 10 hours per day, each consuming one foot per hour. We should recommend our No. 11 size consisting of one Producer (C size) and a Gas holder with a capacity of 1,000 cubic feet. The price of this in Madras exclusive only of Brick work and fixing will be Rs. 4,620, (Rupees four thousand six hundred and twenty). An apparatus twice the size which would enable you to make sufficient gas in one day to supply your burners for 2 or 3 days, would be Rs. 7,000 (seven thousand).

We are erecting an apparatus in Bangalore at Messrs. Spencer and Co.'s and the writer will be there in the course of the next two weeks. He will be very glad to go over the Laboratories where you propose to use the gas and could give you a complete estimate for erecting the complete installation including piping.

Our catalogues are in the Printer's hands, we will forward you a copy as early as possible. In the meantime, if you would like some figures of the cost of producing the gas, we shall be glad to let you have them.

(2) Letter No. 110, dated 8th February 1895, from Mr. R. Bruce Foote, State Geologist, to the Chief Secretary to the Dewan of Mysore—

With reference to the letter signed jointly by myself and Mr. J. Cook, M. A., Principal, Central College, Bangalore, No. 82 of the 9th ultimo, on the subject of the installation of a Mansfield oil-gas factory to supply the Laboratories of this Department and the Central College, I have the honor to forward herewith for the Dewan's information a sketch of the plant requisite for such gas factory, which I have received from Messrs. P. Orr and Sons, together with an estimate of the cost of erecting the gas work.

2. The working cost of the installation will come to Rs. 73 per mensem for 250 cubic feet of gas per diem, which will suffice amply for both Laboratories working at the rate of 5 hours a day excluding Sundays.

3. All things considered, I think the expenses of producing the gas will not exceed Rs. 500 per annum including the cost of the kerosine oil,

4. If worked to its full power, the same installation could be made to produce a tenfold greater quantity, if desirable, to supply gas to any other of the adjoining offices.

5. I have had an interview with Mr. A. Mansfield, the oil-gas specialist, and feel quite satisfied that the working of the gas installation will be very easily accomplished and without

any danger of accidents. I need not again enumerate the many great advantages the possession of gas will confer on all of the Laboratories (Mr. Cook's and our Assay and Geological Laboratories).

(Enclosure to the above.)

Letter dated, Madras, 2nd February 1895, from Messrs. P. Orr & Sons to Mr. R. Bruce Foote.

We will undertake to deliver in Madras our improved patent oil-gas apparatus consisting of 3C size producers, with strong iron casings, fire box, furnace bars, ash box with sliding ventilators, hydraulic stand-pipe, bonnet, oil and hydraulic syphons, oil can and stand, damper and frame, smoke pipe, and fire clay fittings. Also Gas holder 18 feet diameter by 10 feet deep of 2,500 cubic feet capacity with columns, girders, guide rods, chain, guide and friction pulleys, balance weights, chains and wrought iron fittings, syphon box and pipes for tank, suction pipe, main cock and handle, in-let and out-let pipes, screw bolts, nuts, rivets, spun yarn, paint, lead and materials to complete all to out-let of Gas holder and connections between Producer and Gas holder up to twenty feet for the sum of Rupees eight thousand four hundred nett.

Trusting to be favored with your commands.

No. 13394-6—G. 3071, DATED, BANGALORE, 14TH FEBRUARY 1895.

ORDER THEREON.—The Government sanction the proposals made in the above read letters for the erection of an apparatus for the generation of gas for the use of the Laboratories of the Central College and the Geological Department. The apparatus may be of the size proposed in Messrs. P. Orr and Sons' letter dated 2nd February 1895. A complete estimate for plant and erection should be submitted for formal sanction. If equally economical, the erection may be entrusted to Messrs. P. Orr & Sons.
